

POLICY REGARDING GUESTS WITH DISABILITIES THAT WANT TO SKATE OR GO ON THE ICE

Our policy is that we encourage guests with disabilities to skate or go on the ice. There are a number of ways that we can accommodate guests with disabilities:

Wheelchairs are welcome on the ice but admission for skating must be paid.

- Powered or non-powered wheelchairs can go on the ice if they can be safely operated
- Guests in non-powered wheelchairs that cannot operate their wheelchair safely can be pushed by a skilled skater or someone in Spikeys. There is no charge for the attendant pushing the wheelchair.

Guests in wheelchairs must exit and enter the ice through the ice resurfacer gate because it has a flat threshold. A Skatetown teammate will be happy to show you where to enter and exit the ice and assist you.

Buckets for skaters are available for use at no charge. Use of buckets is restricted to the coned or padded off area of the ice designated for beginner skaters.

Sled hockey sleds. \$11 for sled rental and admission. Loaner protective helmets are available at the skate rental counter but they are not required.

The sled can only be used in the beginner area unless the skater is a proficient "skater," such as a sled hockey player. Sled hockey skaters who cannot skate in a safe manner may be asked to refrain from skating or move to the beginner area. Ask a Skatetown teammate to locate an appropriate-sized sled and sled hockey sticks.

Push sled

\$10 for the sled rental

\$10 admission for the person riding the sled. Rider must wear Spikeys unless they are small enough to be lifted onto the sled.

No charge for the person pushing the sled wearing Spikeys and not skating

\$11 for the person pushing the sled wearing skates

Sleds may go anywhere on the rink, however they must be operated in a safe manner. If the sled operator cannot skate in a safe manner, they may be asked to refrain from skating or move to beginner area.

We DO NOT allow crutches, or crutch type devices, to be used on the ice
